ARTworks Vass Job Opportunity

If you'd like to work in a wildly creative environment with the kindest and funniest people ever, this might be the job opportunity for you! ARTworks Vass is in Vass, NC. We're changing the world by building Creative Community, and our love of people is at the heart of all that we do.

Honestly, the job is not all sunshine and roses. Some parts of our jobs we love, and others are a necessary part of doing business.

Let's get the less attractive parts of this opportunity out of the way first.

1. Our employees are priceless to us, and we'll never be able to pay them according to their true worth. Pay for this position starts at $10 per hour. While this job won't be your road to financial riches, it will provide extra spending money. If you're seeking a job to support your household this is likely not the opportunity for you. If you're seeking a side hustle or a part time job that you'll enjoy more than any other job you've ever had, please keep reading.
2. Our employees do all the things all the time. Yes! We work with the most amazing artwork and people. We also dust everything again and again and again, take out the trash, sweep and mop the floors, empty the litterbox, and clean the bathrooms. This isn't as glamorous as it sounds, and sometimes we even show up in our play clothes to tote fragile bulky things between our various classrooms and storage units! If this description hasn't scared you away yet, and if you're willing to do all the tasks all of time, please keep reading.
3. Reread points 1 and 2 above. If you still feel like this job opportunity would be a good fit for you, please keep reading.

Now let's talk about the good stuff!

1. The work is fun, fresh, and dynamic. You will work directly with our founder, Jean, and the best staff of employees and artists that you can imagine.
2. While we will expect you to work efficiently and get things done, we also focus on open communication and getting things done right the first time.
3. The hours are flexible. We will work with your schedule to establish a routine that works for both of us. Are two long days a week best for you? No problem. Would you rather work weekends only, or afternoons only? We'll do our best to accommodate that too. ARTworks Vass will soon be open 7 days a week, and we need to staff accordingly.
4. You will experience things, do things, and make decisions on things that no big stuffy company would ever allow you to do.
5. You don't need to be skilled at drawing, painting, metalsmithing, glass making, pottery, or any of the other art forms that we represent, in fact we don't really care if you can draw a straight line or not. But be warned that you might feel the pull of one or more of those things along the way, as Jean has a way of bringing out creativity in the people around her!

Now, let's talk about the job requirements:

1. You need to be a person who loves to help people while delivering remarkable experiences to them. In other words, you need to be someone who feels good by making other people feel good.
2. You must be able to efficiently and independently work from a task list of fun stuff, important stuff, and the not-so-fun-but-important-and-necessary-stuff.
3. You will be using a computer a lot, so an understanding of social media, email, navigating the web, and other computer-based stuff will be important.
4. You will be on the phone a lot, so you need to enjoy talking with people on the phone while helping them.
5. You need to nail down the details. You don't need to race through work at the speed of light while getting things done badly. We need you to work purposefully and efficiently while getting things done correctly. We want you to be meticulous in your work.
6. Each time that you work, you'll need to be thoughtful and thorough in communicating the status of what got done, what didn't, and what's left to do for the next person scheduled to work.
7. You'll need to be observant so that you can help us to identify projects that need to be done that aren't on our lists, and proactive in either completing these tasks or communicating them appropriately so that they won't fall between the cracks.
8. If you are a bit shy, we can work with that. We're not seeking the life of the party. We are looking for a good hearted, fun person, who gets shit done. (Oh! We do occasionally swear…not much…but sometimes.)
9. In short, your job is to help us in any way you can, and to have fun while you're doing it.

Our work environment is casual, but we do expect professionalism and punctuality. What we don't expect is perfection or existing skills for you to qualify for this job. If you have an open willing spirit, we can teach you almost anything.

We expect intelligence, energy, and a get it done attitude. When you have questions, you will find the answers in a well-crafted series of written procedures. When that doesn't work, a group text or a quick call should provide you with the answer that you're seeking.

To learn more about us, check out ARTworksVass.com, our Facebook Page, and our private Facebook Group, ARTworks Vass Momentary Marketplace.

If this is a job that excites you so much that you would even do it for free, we will absolutely accept that offer from you! If you'd prefer financial compensation or if you'd rather work-for-art, we understand that too.

This is a part time job.

The pay is $10 an hour and the hours will be 10-20 a week.

You must be present in our Vass, NC location 2-4 times a week to work as this is not a virtual job.

To apply for this position, please email us at info@artworksvass.com, and tell us a bit about who you are and why you think we'd be a good fit for each other. Be sure to include your name, cell phone number, email address too.

To work at ARTworks Vass, in addition to being a detailed person, you must follow systems and processes. In fact, just to prove that you are meticulous and can follow procedures, when you apply for this position, you must include "I have found my Creative Community" in the subject line of your email. This is our trick to sort out the applicants who have already stopped reading because they respond to every single job posting they see. We only want to consider those who are genuinely interested in working with us to apply.

We are looking to bring our new colleague on board as soon as possible, but we will spend the necessary time to find the best fit both culturally and in abilities. One thing that will give you a leg up, but is optional, is to send a quick video in along with your email. In your video tell us why you think you'd be perfect for this job and why this is the perfect position for you. This is purely for us to get a sense of your personality, and not a requirement. If you decide not to send a video, that's okay, but please tell us why you chose not to send in a video.
